HEAVY EQUIP LLC | MACON, GA

What to Expect

A quick guide to your project with Heavy Equip LLC.

Hi, I'm Andrew Miller

I own Heavy Equip LLC in Macon, GA. I'm a hardworking person, and my mission is to keep our waters clean for future generations.

Thank you for considering us for your project. This page walks you through how we work, what your job day looks like, and how you can help us get ready.

How we work

- **Weedoo amphibious work boat.** We do the work right from the water with our Weedoo boat.
- **Mechanical weed removal.** We pull weeds from the water with a grapple bucket or screener bucket.
- **Floating bog removal.** We lift out floating bogs with the grapple bucket.
- **Hydraulic dredging.** We pump silt from inside turbidity curtains, with silt fence and wheat straw on shore to help hold sediment in place.
- **Debris removal.** We clear logs, limbs and other debris from the water.

Our Weedoo boat pushing muck to shore with the grapple bucket.

On job day

1. **Arrival.** We arrive with the boat and look over the work area, with you if you are available.
2. **Containment setup.** We set up containment when the job calls for it, such as turbidity curtains, silt fence and wheat straw.
3. **The work.** We work on the weeds, bogs, silt or debris in the agreed scope of work.
4. **Hauling.** When it is part of the agreed scope of work, we haul removed material off site.
5. **Walkthrough.** When we finish, we walk through the work area with you.

Before we arrive, please:

- Clear a path so our equipment can reach the water.
- Move or reroute anything in the work area, such as irrigation pipes, lines or loose dock items.
- Call me with any questions about access.

Qualified and insured

- **Georgia Power approved contractor** for the Lake Sinclair and Lake Oconee shoreline rules.
- **Insured** for $1,000,000 each occurrence and $2,000,000 aggregate.
- **Certified Inspector** with the Georgia Soil and Water Conservation Commission (erosion and sediment control).
- **Certificates of insurance** provided whenever needed.

Thank you for trusting us with your water. I look forward to working with you.
